

Style "EC-HDAOSG" access hatch, as manufactured by Syracuse Castings, Cicero, NY 315-699-2601.

Material shall be 6061-T6 aluminum for bars, angles, and extrusions. 1/4" diamond plate shall be 5086 aluminum.

Exterior of frame which comes in contact with concrete shall have one coat black paint.

Unit designed heavy duty, for H-20 wheel loads, where not subject to high density traffic. Frame and bearing plate must be cast into and supported by concrete designed for H-20 loads.

Each door shall be equipped with a grade 316 stainless steel hold open arm. Door shall lock open in the 90 degree position. Hold open arm shall be fastened to the frame with a 1/2" grade 316 stainless steel bolt.

Angle frame shall be of extruded aluminum, with a continuous 1-1/2" anchor flange.

Cover hinges shall be of heavy duty design. Material shall be grade 316 stainless steel. Each hinge shall have a grade 316 stainless steel, 3/8" diameter hinge pin. Hinge shall be fastened to angle and diamond plate with grade 316 stainless steel bolts and ny-lock nuts.

All hardware shall be stainless steel.

Each hatch shall be supplied with a grade 316 stainless steel slam lock, with key way protected by a threaded removable plug. Plug shall be flush with the top of the 1/4" diamond plate. Slam lock shall be fastened with four grade 316 stainless steel bolts and washers.

Each hatch shall be equipped with a stainless steel lift handle. The lift handle shall be flush with the top of the 1/4" diamond plate.

Unit shall be supplied with a hinged safety grate to provide protection against fall through and to control access to the confined space.
